2019 / 2020 OGS Application

Introduction

Since 1975, the Ontario government, in partnership with Ontario's publicly assisted universities, has encouraged excellence in graduate studies at the master's and doctoral levels through the awarding of Ontario Graduate Scholarships (OGS). OGS awards are merit-based scholarships available to students in all disciplines of graduate study. The Queen Elizabeth II Graduate Scholarships in Science and Technology (QEII-GSST) program is in addition to and harmonized with the OGS program. QEII-GSST awards are merit-based scholarships available to domestic students in graduate study undertaking research in science and technology fields. The OGS and QEII-GSST programs are jointly funded by the Province of Ontario and Ontario universities. The Province of Ontario contributes two-thirds of the value of every award and the university provides one-third through private donations to Western.

Both OGS and QEII-GSST awards are annually allocated to eligible universities in Ontario. Western's allocations for the 2018-2019 OGS and QEII-GSST competition are as follows (allocations for the 2019-2020 competition TBA shortly):

- 288 OGS awards to support domestic students
- 8 OGS awards to support international students
- 3 OGS awards to support Indigenous to Canada - First Nations, Métis, Inuit students
- 57 QEII-GSST awards to support domestic students in science and technology research in the Faculties of Engineering, Science and the Schulich School of Medicine and Dentistry

At Western, applicants are automatically considered for both the OGS and the QEII-GSST through one application - Western's Online OGS/QEII-GSST Application.

Referees

The applicant is required to identify two academic referees that will complete an academic assessment in support of the application.

The applicant is prompted to send the reference request (via email) to each referee, inviting them to complete a report. Each referee is provided a “requested completion date” which is two weeks from the date the request was initially sent. The referee is also informed that the applicant may not finalize and submit their OGS application if a reference is outstanding.

The applicant will receive an email confirmation when a reference has been completed. The status of the report request will be visible to the student on this page.

When an applicant first enters the referee information, they will be prompted to SAVE the information and then must also select SEND EMAIL in order for the email to be sent to their referee. If an applicant’s referee indicates that they did not receive the email, the applicant must complete the following:

1. Confirm that the referees email is correct
2. Ask the referee to check their spam/junk email folder for the email

If the above has been done and the referee still did not receive the email the applicant must:

1. Ask the referee if they have a different email address that can be used
2. Use a different referee

An applicant cannot finalize and submit their OGS application if a reference is missing.

Referee Reports

Two academic assessments are required for your OGS application. You are advised to pick referees who know your academic work well and can provide significant information on your academic performance. We suggest providing your referees with a copy of your unofficial transcript, your resume/CV, a copy of your statement of interest/research proposal and additional information where appropriate.

Western will connect with these referees via email and request they complete a secure online form detailing your academic performance in relation to your peers at a similar stage that they have previously evaluated. Your application is not considered complete until these references are returned to Western. All references must be received by February 1, 2019 4:00pm EST.
