Postdoctoral position in Smart Cities

A joint postdoctoral position is available in the labs of Dr. Michael Bauer and Dr. Hanan Lutfiyya in the Department of Computer Science at The University of Western Ontario and will commence in September 1, 2019 (or agreed upon start date).

This position involves research in the areas related to smart cities including fog/cloud computing for smart city applications, resource management, modeling of smart city applications, and network performance for smart cities.

Applicants must have expertise in distributed systems, software development/modeling or Internet of things. Preference will be given to those who have some background in Internet of Things, sensors, or data analytics. The successful candidate will also have strong communication skills and experience in teaching.

This position has a two-year term with a flexible start date of September 1, 2019. The salary will be \$67,000 CDN per year. The position will involve teaching two half-courses per year, in addition to research. Candidates should have completed a Ph.D. in July 2016 or later. The filling of these positions is subject to budgetary considerations.

Please direct all enquiries and application packages, which should include a cover letter, curriculum vitae and the contact information for three references, to Michael Bauer by email at bauer@uwo.ca and Hanan Lutfiyya at hanan@csd.uwo.ca. At least one reference should be able to comment on the teaching abilities of the applicant and one of the references should be the PhD supervisor. Please include "PDF in Smart Cities" in the subject line of your email. Applications will be considered until June 30 2019.
