

## Postdoctoral Associate

### School of Communication Sciences and Disorders, Faculty of Health Sciences, University of Western Ontario, Canada

#### About Western

Western ranks as one of Canada's top research-intensive universities. From fundamental to applied discovery and other scholarly activities, its scholars advance knowledge that provides tangible benefits for the economic, social, health and cultural development of citizens in London, in Canada and around the world. Western Research supports scholars through collaboration, communication, and service. Western University and its affiliate colleges received more than \$267 million in research funding over the past year.

#### About the Role

A postdoctoral position is available with **Dr. Lisa Archibald**, Professor and Director of the Language and Working Memory Lab. This position is available to begin immediately, and recruitment will continue until it is filled. The position would be for 2 to 3 years.

Applicants must have a Ph.D. in Speech-Language Pathology, Education, Psychology or a related field. The successful applicant will ideally possess research experience running clinical trials related to language and literacy learning in school age children. The successful candidate will have strong oral and written communication, interpersonal, and organizational skills.

The candidate will lead a pragmatic trial focusing on optimization of reading intervention components for struggling readers. Working with a project team, the candidate will be involved in all aspects of the study including data collection, analysis, and manuscript preparation.

This position is full-time. The salary will be commensurate with experience but competitive with current scholarships. More information about benefits for postdoctoral associates at Western University is available at:
