

Postdoctoral Position Available

A postdoctoral position is available immediately in the laboratory of Dr. Rodney DeKoter, Department of Microbiology & Immunology, Schulich School of Medicine & Dentistry at Western University. The DeKoter lab has a long-standing interest in regulation of immune system development by transcription factors. The goal of the research project will be to study genetic causes and pathways of oncogenic addiction in B cell lymphoma. Qualified applicants for this position should have a PhD degree in Immunobiology or a related discipline, significant experience in techniques including mouse care, flow cytometry, retroviral gene transfer, quantitative PCR analysis, and chromatin immunoprecipitation. Expertise in bioinformatics, especially analysis of ChIP-seq data, would be an asset. The initial appointment will be for one year, renewable based on performance, and successful candidates will be expected to apply for external funding. A competitive stipend will be paid commensurate with experience.

Please send a statement of interest, Curriculum Vitae, and the names of at least two references to Rodney DeKoter, Ph.D., Department of Microbiology & Immunology, Western University, London, Ontario, Canada N6A 5C1. Email: rdekoter@uwo.ca. Phone (519) 661-2084. Applications will be reviewed as received until the position is filled.
